This is Tallstar

TALLSTAR POV

I was in the Clan and was walking around checking everything and I noticed that everything was peaceful.

Just then I heard cats talking and so I went to them.

"What's going on?"

They look at me.

"Tallstar I was doing patrol near our borders when I saw a cat from ThunderClan and we talked and he said one of their warriors fell in love with the leader of another clan," he says.

"Ok? But that happens often" I said, "why does that sound surprising?"

"The warrior fell in love with the leader of BloodClan," he says.

"You mean Scourge?" He nods "what kind of cat would fall for him?" I said being surprised.

"And you are not going to believe this" I look at the other cat "it's a Tom that fell in love with Scourge"

"And who is this cat that fell in love with him?"

"The cat said his name was," he thinks for a second, "I think she said Ashfur, but I'm not completely sure"

"A male and a male together, I've never heard of such a thing"

"We agree with you Tallstar," he says.

"It just feels un-normal," she says "why would anybody want that"

I then leave them to talk and I go for a walk into the woods.

As I walked I climbed the biggest tree and I look all around and then I saw the big city where Kittypets live at.

I always wondered what it was like to live there. But I know that I can't because I'm a leader of WindClan and I just can't leave them to explore over there.

After a while, I went down and I walked some more as I thought.

Thanks to me thinking I banged into something.

"Ow"

"That looks like it hurt" I look up and see an orange cat on top of the wood "you're a forest cat right?"

"Yeah, what of it?"

"Nothing, I just never met one before," he says.

"What did I bang into?"

"This is a fence," he says "so what brings you here forest cat?"

"I was just thinking and I ended up here by accident"

"Well, you wouldn't be here if you weren't thinking of it," he says.

"You got a name Kittypet?" I ask.

"Tell me yours first," he says.

"Fine, my name is Tallstar and I'm the leader of a Clan"

"Cool," he says.

"And what's yours?"

"My name is Jake and what is a Kittypet?" Jake says.

"It's what we forest cats call your kind of cats that live around here"

"I see, well I wish I could keep talking, but my owner will be home soon and I better get in" he then leaves and then stops "I don't suppose you would be willing to come back maybe and talk some more?" Jake asks.

"I'm a leader of a Clan and I'm always busy, but I can't make any promises, but I'll try"

He smiles "that's all I ask," Jake says "goodbye Tallstar"

He then jumps down and he was gone.

I then leave and return to my Clan and when I get there it was night and so I got some prey and ate and then I went to bed.

This is Jake

JAKE POV

I was in the house eating with my owner and he eating his dinner while watching tv.

Just then the front door opens and it was my owner's roommate and I hate her.

You see the reason why I hate her is that she hates cats and she tries to get rid of me, but my owner loves me too much to let anything happen to me and he told her.

"If anything happens to my cat you are out of here and on the street," he told her that and she hates it, but leaves me alone.

But I do like to make noises and act like she hurts me when she gets too close and that makes my owner come right at me and he baby's me.

I'm spoiled and I don't care. My owner is amazing.

But right now they were talking and so I went to my owner and jumped on his lap.

"Why do you keep this cat, and not get a different animal," she says.

"Because I'm a cat person and I'm working on getting another cat," he says "so that my baby doesn't get lonely when I'm at work" he rubs my fur and that makes me purr.

"No, your cat doesn't need another cat or this place," she says.

"It's my house and it's my choice," he says.

"I hate cats" she then leaves and goes to her room and closes the door.

"Ignore her," he says as he rubs my fur.

After a while, we went to bed.

When the next day they went to work and I went out the cat door and I went to the fence and talked to the other cats for a while.

Until I leave and go to the spot where I met Tallstar yesterday.

I waited for hours and when I was about to leave I heard movement and that made me look that way and it was him.

"I thought you weren't coming"

"Well, I did say that I would try and I guess I made it, just before you were about to leave," Tallstar says.

"I guess so" we stare at each other "want to come inside my home and take a look?"

"I don't think I should," Tallstar says.

"It will be ok," I said "my owner and his terrible roommate are at work and won't be back for 2 more hours"

"Well," Tallstar says.

"Come on" he looks at me "don't tell me the leader is afraid"

"I am not afraid, I'm cautious, every forest cat knows to keep a distance from this territory," Tallstar says.

"Then prove it"

"Fine" Tallstar says.

He then climbs the fence and I lead him to my home.

When we get we go through the cat door and we go in.

"Welcome to my home"

"Woah," Tallstar says "what is all this stuff?" He asks as he looks around.

"It's called furniture and people like my owner lives with this stuff"

"I see," Tallstar says looking around "what's this?" I then see him near my cat bed.

"That's my cat bed, try it, it's comfortable"

"You sure?" Tallstar asks.

"Yeah, go ahead"

He then gets in and lays down "wow, this is so comfortable" he rolls all over it "this feels good"

I laugh a little "I guess y'all don't have beds like this in the forest?"

"Nope" he then gets up "that feels pretty good laying on" I nod "do you mind if I come more often? It would be nice to learn more about your lifestyle and you" Tallstar says.

"I'd like that"

We smile.

Just then the door opens and it was my owner and he saw us.

"Who's this" he tries to pet him, but Tallstar backs away "it's ok, little fella I won't hurt you"

"It's ok Tallstar, he's my owner, he loves cats"

My owner then gets closer and Tallstar gets stiff and my owner pets him and I saw Tallstar relax from the touch.

"I'm glad you made a friend my little Jakey," he says and then went to his room to change.

"Little jakey, hu," Tallstar says teasing me.

"Shut up" he laughs "he calls me that because he's had me since I was kitten"

"Wow, he seems nice," Tallstar says.

"He is"

"Well, I need to go now, before it gets dark" Tallstar says.

"I understand"

He then leaves and that left me and my owner alone until she got home.

"I hope I see you again Tallstar," I said.

TALLSTAR POV

It has been a few days since I met Jake and it's nice to have someone to talk to and I've got to know his owner better as well and Jake was right he's really nice and cares for Jake very much.

But right now I was on the high rock watching the Clan.

I had some of the warriors out in the forest gathering prey for the Clan.

When everything was good I left the Clan and to see Jake.

When I get there I see him there as always.

"Hey forest cat," Jake says.

"Hey jakey"

"Stop saying that," Jake says with a blush.

I climb the fence and sit next to him.

"Why?" I ask "it's fun teasing you"

"Come on," Jake says getting down and goes into the house.

I then get down and walk into the house.

We then lay on the new big cat bed that his owner bought when he kept seeing us together.

"I'll never get over how soft and comfortable these beds are"

"Is it hard laying on the ground?" Jake asks.

"Not really, we make nests and that makes them comfortable, but

this is better"

Just then the door opens and it was a female.

"Oh, great" Jake says "she's here"

"Who's that?"

"That's my owner's roommate. She hates cats and tries to get rid of me, but my owner always keeps me safe" Jake says.

"Oh, good god," she says "another filthy cat animal" she then takes Jake throws him on the floor, and then comes at me "your next" when she tried to grab me I scratch her "ow" she rubs her arm "you mangy furball" she grabs me and that makes me scratch her in the face and scream in pain and falls on the ground.

I then run at her and attack and hurt her pretty bad.

When I was done I went back to Jake and I saw he wasn't standing on one of his front paws.

"Are you alright?" I ask.

"Yeah, when she threw me I landed on my front paws and I sprang my paw, but I'm ok," Jake says.

Just then I saw the door opens and I got an idea.

"Quick lay down act like in pain" he nods and acts like he was in pain and I got into the fighting position.

He then saw us.

"What happened?" He runs past her and runs to Jake and picks him "my poor baby" he checks him and then looks at me "you got blood on your fur" he takes me and he wipes the blood off me and then puts me back down next to Jake "what happened?" He looks at her.

"That new cat of yours attacked me for no reason," she says.

"Cats only attack people if they're a threat to them and Jake is hurt

and I see this cat over him protecting him," he says.

"I was just going to sit down on the chair and I was moving the cats and then he attacked me," she says.

He helps her stand up.

"I told you before, that chair is for the cats not for you or me" he sighs and rubs his face "I want you gone"

She gasps "why the cat attacked me"

"I don't care, I want a roommate that likes cats and you don't," he says "so you have a week to pack up and leave"

"Fine," she says "I never wanted to be with a freak that loves cats more than the human raise"

She then walks into her room and slams the door.

He sighs and looks at me.

"Thank you" he rubs my fur "for protecting Jake, you always welcomed here, and if you want you can live here too"

After a while, I left and said goodbye to Jake and I went home.

NO ONES POV

After the fight with her, she kept her distance from them when Tallstar was around.

But luckily she moved out now and it was just Jake and his owner.

And his owner is looking for a new roommate as well.

But right now Tallstar was with a few warriors checking the territory for prey and danger.

And Jake was at home as he watches his owner packing some clothes and he made a meow noise and looked at him.

"It's ok, Jake" he pets him "I'm going on a 2-day business trip and I've asked the neighbor to look after you and I left you enough food and water until I return" he kisses Jake on the head "you be good ok"

When his packing was done he hugged and kissed him goodbye and Jake watched him drive away.

After a while, Tallstar showed up and when he got there he saw that Jake wasn't at his spot where they meet and that made him worry.

And so he ran to his home and went through the cat door and he saw Jake and he was sad.

"What's the matter?" Tallstar asks and he looks at him.

"My owner had to leave on a business trip for 2 days and now I'm alone," Jake says being sad "I hate it when he has those trips"

"Hey" he lays with Jake "I have an idea," Tallstar says.

"What?" Jake asks.

"Why don't you come with me to my Clan" he gasps "until your owner comes home," Tallstar says.

"I don't think your Clan will like a Kittypet in your Clan," Jake says.

"I'm the leader and if I say it's ok, they can't do anything about it," Tallstar says.

"I don't know," Jake says "I've never left this territory before," Jake says.

"I'll protect you from anything" he looks at him "I won't let anyone hurt you," Tallstar says.

"Ok," Jake says.

So they hung out for a while until they left the house and went into the forest.

While they walked in the forest Jake was looking around.

"We're almost there," Tallstar says.

"Ok," Jake says.

As they walked other cats showed up and that made Jake get close to Tallstar for protection.

"Tallstar who's the Kittypet?" One of them asks.

"He's a friend and he's staying with me and under my protection," Tallstar says "come on"

They then continue walking into the Clan and the other cats looked at him.

They then walk into a den.

"What's this place?" Jake asks.

"It's my den, but in your terms my home" Tallstar says.

"I see," Jake says and then sits "a lot of cats were staring at me and I feel out of place here"

"Don't worry" he sits next to him "nothing will happen to you and don't worry you'll feel more at home here over the next 2 days" Tallstar says "and I can show you around the territory"

"Ok," Jake says.

So they stayed in Tallstar's den and he explained the rules here and where not to cross so that he doesn't leave the territory for his protection.

When it got dark Tallstar went to get some prey and returned with 2 birds and they ate.

And then they went to sleep together.

JAKE POV

It was the next morning and Tallstar got us some food and then he showed me around his Clan and he even took me to a cat that knows medicine and it turns out they're called medicine cats and they checked wounds and injuries.

When he was done we left together and Tallstar showed me around the forest and it was incredible.

We then walked to a hill and I saw the whole forest and it was big.

"Each side of the forest is claimed by a different Clan," Tallstar says.

"How many Clans are here?" I ask.

"There are 4 Clans," Tallstar says.

"What are they called?"

"Well, you know about my Clan WindClan and the others are called ShadowClan, ThunderClan, and RiverClan," Tallstar says.

"Woah," I said looking at the forest.

We then ran around the forest and were having fun.

We then came running down a hill and I lost my balance and slipped and banged into Tallstar and we rolled down the hill.

When we hit the bottom Tallstar ended on top of me and we look at each other and laugh.

"Sorry," I said while laughing.

"It's ok," Tallstar says laughing as well.

We then get up and continue walking together.

After a while, we went back to the Clan and he showed me the Clan on top of the rock where the leader sits and watches everything and I could see everything.

I then look at him as he watched over his Clan. I then wrap my tail around his tail and I see him smile and I see his tail wrap around my tail as well.

"Tallstar," a cat says and that makes us break out tails free.

"What?" Tallstar asks.

"The hunters have returned with more prey," he says.

"Excellent" Tallstar says "dismissed"

I then tried to wrap my tail around his tail again, but he moves his tail away.

I then get down and went back to his den and laid down.

I then see him walk in.

"What's the matter?" Tallstar asks.

"Nothing"

"Now I know that's a lie," Tallstar says "I know what you're doing, but it can't happen"

"And why not" I sit up "we were having a moment until that cat showed up and ruined it"

"We just can't," Tallstar says "males can't be together with another male"

"And why not," I ask "that leader in my territory has a male mate, and their happy"

"Cats fear him, that's why they don't go against him about him having a male" Tallstar says.

"I thought we were having a moment, but clearly all you care about is your image and how your Clan thinks of you"

I then walk out of the den.

"Where are you going?" Tallstar asks.

"I'm going home"

"Why?" Tallstar asks "we were having a good time"

"I just don't want to be here"

I then ran away with tears running down my face as I went home.

When I got there I went inside my house and lay on my bed.

TALLSTAR POV

After he ran off I went after him and I followed him to his home.

I then went to the window and I saw that he was really sad.

I do have feelings for him, but I can't be with him. My Clan finds the same sex together wrong and I don't need them thinking bad about me or him.

I then get down and walk back to my Clan.

"I'm sorry Jake"

JAKE POV

My owner came back home a few days ago and he has been giving me a lot of attention because he missed me.

I'm still not happy, but I miss Tallstar and how we use to hang out and he still hasn't come around.

TALLSTAR POV

It has been a few days since what happened and I haven't left my Clan.

I know what I did was wrong, but I'm stuck in between the rules of the Clan and my heart.

I have to make an example to the Clan about the rules and that they must be followed.

But spending time with Jake has made me change my point of view on some of the rules.

When night came I snuck out of the Clan and went to Jake's place.

When I get there I went to the window and I saw him asleep on his cat bed.

I then went to the cat door and went in and walked to him and lick his head and he groans in his sleep and then I walked to the door and went outside.

"Tallstar" I gasp and turn my head and I saw Jake walk to me "I'm surprised to see you here" Jake says.

"I wanted to make sure you were ok"

"And licking my head was part of that?" Jake asks.

"I thought you were asleep"

"I was, but I felt something wet touch me and I opened my eyes and I saw you walking out and so I followed you and here I am" Jake says.

I sigh "look, I'm sorry about what happened before and the way I acted"

"It's ok, I understand, you have a way that the other cats in your clan look at you and you don't want that to change" Jake says "but I do want us to stay friends"

"I'd like that"

We then talked for awhile until I had to leave.

But we agreed to meet up tomorrow.
🐈⬛🐈⬛🐈⬛

metal in her hand.

"She has a gun" Jake says with worry. We then saw her point the gun at us "run"

We then ran as she tried to shoot at us.

"To the cat door" I said.

When Jake got outside I locked the door thanks to him teaching me how to do it and then it left me and her.

"I hate you fur balls" she says and shoots at me.

But I run and dodge her hit and then I climb the wall and jump and land on her head and scratch her face and make her bleed and then I attack her hand with the gun and bite it and she drops the gun and she grabs me and throws me to the wall and I bang into it.

I try to get up, but she holds me down and I see the gun pointing right at me.

"TALLSTAR" Jake yells and I see him run right through the front door and attacks her.

Just then I saw him bite her ear and she moves around trying to get him off her and she let go of me I joined the fight and we hurt her really back.

She then grabs Jake and throws him hard to the wall and passes out.

She then grabs me and did the same thing to me and aimed her gun at Jake.

"What the hell" she turns her head and we saw that it was Jake's owner and then he attacks her and they fight over the gun, but thanks to that it went off and I saw the thing fly right at Jake.

"NOOOOO" his owner and me both said.

I then got up and ran to Jake and took the hit and I fell on the

ground and I saw Jake open his eyes as I saw my blood coming out of me and that everything was going black.

"Tallstar" Jake says.

And that was the last thing I heard before I passed out.

JAKE POV

After all the shooting, the neighborhoods heard the gunshots and called the police and they arrested her and took her away.

My owner then took Tallstar to the animal hospital and right away they went to work on him.

But I couldn't stay with him and so we waited in the waiting room for any news of Tallstar's condition.

After a few hours the doctor showed up with blood on his outfit and she walked to us.

"How is he doctor?" He asks.

"Well, the good news is that we were able to save him" I sigh in relief "but the bad news is that the bullet that hit him did some damage on his leg since the bullet was pretty close to his leg," the doctor says.

"So what's wrong with his leg?" He asks.

"We had to cut it off or the cat would have died," the doctor says.

"Poor fella," he says "how long does he have to stay here before he's free to go?"

"He'll have to stay here for a few days before we can release him and with those few days we will be helping him walk on 3 legs," the doctor says.

"Thank you, doctor," he says.

After that, we left and went home.

When we got home my owner went into his room and when he was gone I got tackled and I looked and I saw one of the warrior cats in his clan. And it was female with yellow and white fur with green eyes.

"Where's Tallstar?" She asks.

"Aren't you his Beta?" I ask.

"Yes, now answer my question," she says.

"You got a name?" I ask "and he got hurt and my owner took him to the animal hospital to get better"

"You should have brought him to us," she says "and my name is Rika"

"I couldn't my owner took him before I could do anything and he almost died"

"What," Rika says being surprised "is he ok?"

"Luckily he is, but he lost his leg and they won't let him go until a few days and they need him to get used to walking on 3 legs and then my owner can bring him back"

"I need to tell the clan this so that they know and don't worry that their leader hasn't abandoned them," Rika says.

"He would never do that, he cares about the clan more than anything and that includes me"

"Wait, do you like him?" Rika asks.

"Even if I did, it's doesn't matter, he cares more about how his clan would treat him if they found out"

"Let me tell you something," Rika says "my mate has a brother and he fell in love with the same gender and that cat was part of BloodClan of Scourge's Clan"

"Who are these cats?"

"My mate's brother is named Graypaw and the other cat that he fell in love with is named Blood and they are happy together," Rika says.

"And your ok with the same genders being together?"

"There's nothing wrong with that and I don't why everybody thinks there is," Rika says "but anyway I need to go tell the clan and when Tallstar comes back here come to the clan and tell me and we'll bring him back to the clan"

"Ok"

After that, she went back to the forest and I laid on my cat bed.

NO ONES POV

Time went by and Tallstar was now feeling better and he was now walking on 3 legs and he was back with Jake and his owner.

But right now they were walking through the forest heading to his Clan.

When they got there they were greeted with a few cats that were on patrol in the territory.

They then went into the Clan and a lot of them gasped on what they saw.

"Tallstar" Rika says running this way "I'm glad your feeling better and welcome back" he then looks at Jake "I told you to come and get me when he returned"

"I tried, but he wouldn't listen and demanded that we head over here" Jake says.

"It's true" Tallstar says "I told him too" he then jumps on his rock "report on what has been going on since I've been gone"

"Everything has been running smoothly and we've had no trouble" Rika says.

"And the food?" Tallstar asks.

"We're good on the food situation" Rika says.

"Good" Tallstar says.

After that Jake went home and left Tallstar alone to let him handle his Clan.

After a while Tallstar returned to Jake's home and Jake's owner gave him his medicine that the doctors gave him for the pain since he wasn't fully healed yet.

But Tallstar left Rika in charge while he finished healing.
🐈‍⬛

While Tallstar healed he spent a lot of time with Jake and they enjoyed each other's company and just lay together.

Tallstar also noticed how it is to be loved by someone and how Jake's owner treated him and he treated Tallstar as if he was his own pet like Jake.

"I like your owner" Tallstar says.

"Yeah, me too" Jake says "he's a great guy"

After that they left the house and walked around outside and it had gotten easier for Tallstar to walk around on 3 legs.

But right now Jake and Tallstar were in the car 🚗 with his owner and they were heading somewhere.

"Where are we going?" Tallstar says.

"My favorite place my owner takes me too" Jake says.

"And what is that?" Tallstar asks.

"The cat park" Jake says.

"The what?" Tallstar asks.

"You'll see and it's a lot of fun" Jake says.

"Ok" Tallstar says.

After a few minutes they finally arrived the owner got the cats and they went inside a building and then Tallstar saw it.

"Welcome to the cat park" Jake says.

"Woah" Tallstar says.

Jake then shows Tallstar around the cat park and then they played together.

Later more cats showed up and jake introduced Tallstar to a few of his friends and they hung out.

But after a few hours they left and went back to the house.

They ate dinner and then Tallstar went to check on his clan and to make sure everything was ok and then returned to Jake's home and they went to sleep together in the big chair.

NO ONES POV

Time went by and Tallstar was back to normal and was feeling 100% better.

And he would go visit Jake every chance he got and sometimes he would leave Rika in charge while he would spend time with Jake for a few days before going back.

And right now Tallstar was walking to Jake's place to spend time with him since he hasn't seen him in a few weeks.

When he got there he saw Jake outside on the back porch and he was sad.

"Jake?" Tallstar says and Jake looks at him as he sitting next to him "what's wrong?"

"We're moving" Jake says.

"Moving?" Tallstar asks "you mean going to a new territory?"

"Yes" Jake says "my owner got a promotion at work and he was offered a better paying job and so we're moving in 5 days to a new city"

"Oh" Tallstar says "I'm sorry"

"It's not your fault" Jake says "but I do want to ask you something"

"What is it?" Tallstar asks.

"Um" Jake stops for a second "will you come with me?"

Tallstar gasps at his question "Jake, I love to go with you, but I can't"

"Why not?" Jake asks.

"I have a Clan that needs me" Tallstar says.

"And I need you" Jake says "but I guess your Clan is more important than me"

Jake then walks in.

"Jake" Tallstar says following him inside "you are important to me, but so is my Clan"

"Well, you can't have both" Jake says.

"Why don't you come live with me" Tallstar says.

Jake and stops on his tracks and gasps and look at him.

"You remember what happened the last time?" Jake asks "you didn't want to show your feelings toward me with all your clan cats watching"

"Yes, but I don't want to lose you too" Tallstar says.

"Just go home" Jake says as tears fall as he lays down on the couch and turn away from him.

Tallstar sighs and he was about to leave when he stops and runs to Jake and tackles him.

"Tallstar?" Jake says being on the bottom "what are you do-"he gets cut off by Tallstar kissing him.

"That's how I feel about you" Tallstar says "and don't you forget it"

He then leaves and goes home.

Leaving Jake shocked.

TALLSTAR POV

When I got home I went to my den and laid down and think about what Jake said.

"Something wrong?" I look up and see Rika.

"What are you doing here?"

"I saw you come back, but you looked down and so I came to see what was wrong" Rika says "talk to me"

"Jake's moving away to a new city/ new territory and he's asked me to come with him and I don't know what to do"

"Good riddance" Rika says "we won't have to deal that Kitypet and you won't be distracted with him anymore"

I sit up "don't talk about him like that"

"Why? It's not like you love him" Rika says "I mean duty comes first before love"

"Your wrong" I said "finding your soulmate is the most important thing in a cats life and I do love him and I would anything to be with him" she smiles "what's with the smile?" It then hit me "you played me"

Rika laughs "yep, I knew you were in love with him from day you protected him from the Clan attacking him"

"Even if I love him, I can't just leave and abandon the Clan"

"Then pick a new leader to take your spot and go to your mate and be happy" Rika says.

"I'll think about it"

****TIME SKIP****

I thought hard on what Rika said I decided to follow my heart and go with Jake and live my life with him.

And right now I was my high rock I sit at and called them all.

When they got there Rika sat next to me.

"I've called this meeting because I'm leaving"they gasp and talk to

each other "and" they stop "Rika will be taking my place as leader"

"Why are you leaving?" A warrior asks.

"I've fallen in love and I'm going to live with my mate" I look at Rika "I Tallstar claim you as the new leader of the Clan" I then touch her and my star on my arm fades off me and goes to her and it appears on her arm and that means she now has 9 lives like I did.

You see leaders get a star ☆ somewhere on their bodies when they become leaders you also get 9 lives and that's what she has.

"Thank you" Rika says "I'll do you proud"

"You already have" I said "being my best friends and always being by my side"

We hug and then we smile and I said my goodbyes and ran to Jake's place.

He was leaving today and I had to make it there before he leaves.

When I arrived I saw that it was empty and then I heard something on the front end and so I ran to see.

When I got there I saw a big truck and Jake's owner's vehicle and it was leaving.

I then ran and tried to catch it.

But it was to fast and so I used the trees and jumped around until I saw the vehicle stop and so I ran faster and I jumped and landed on top on the vehicle and I saw the owner get out and look at me.

I then jump down and ran into it and I saw Jake in the front seat.

"Tallstar?" Jake says "what are you doing here?"

"I came to stay with you"

"But what about your Clan?" Jake asks.

"I left them with a cat I trust very much"

"I don't know what to say" Jake says.

"How about you let me come with you and we live a happy life together"

"I'd like that" Jake says.

We then sit together in the front seat as the owner gets in the vehicle and he drives.

As he drives we cuddle up and look to the future of our lives together.

THE END
